

Mythical Creatures Report:

Trolls

What is a troll?

A troll is an unintelligent and dangerous creature that sometimes has magic powers.

Where do they live?

Trolls live in mountains, forests, caves or under bridges. Some trolls live alone and some trolls live in family groups.

What do they look like?

Some trolls are giants and some are dwarfs. They have rough skin, big teeth and long, dirty hair.

Did you know?

Some trolls turn to stone when they see the sunlight.
